

CAVE 3.0 MEETING

Villa Blanc House — Via Onofrio Panvinio 7, Rome, Italy
Friday 16 - Sunday 18 August 2019

This meeting is the initial step of the *Cave 3.0* opera company, it is intended to get to know each other, to get acquainted, to connect, search, explore and find out possible matches and synergies, focusing on how to work together in practical terms, may be also some auditions, roles; etc., testing the collective intelligence of the group. A kind of a preparatory session, not yet the real work, or may be some... that will provide insight on how to move further, individually and collectively.

We will video-record the whole meeting and make selected material publicly available online via our web sites and social outlets, as a documentation of the work in progress and as part of the warm-up communication campaign to be run until the opening/premiere, planned for the 2020 autumnal equinox — Tuesday 22 September — when day and night are balanced.

Cave 3.0 is part of the *Meeting in the Cave* meta-installation that will be presented as the case study of the *Meeting in the Cave – Awareness, Culture & Development* side-event, an initiative of cultural philanthropy organized by Spanda at the UN in New York during the opening of the 75th Session of the General Assembly, to refocus global institutions' efforts and resources from Economics to Culture, for a culture of life attuned with nature.
